PERSONAL STATEMENT

A passionate, creative individual with great motivation and an analytical mind.

Eager to develop full-stack development skills acquired at KU into a long and stimulating career.

TECHNICAL SKILLS:

- HTML
- CSS
- JavaScript & jQuery
- Firebase
- Node.js
- Bootstrap
- APIs
- MySQL

OTHER INFO:

- Native level English,
- Good conversational ability in German and Welsh
- British/German nationalities

RELATED INTERESTS:

- Fantasy sports applications and data (have begun to explore my own projects)
- Music recommendation applications to find similar and new music (learning programming skills to pair with existing in-depth music knowledge)

ACADEMIC BACKGROUND

University of Kansas, USA

Coding Bootcamp, 2018-19

- Attending from 2018 to 2019 -
24 week course aiming to produce job-ready developers. Many skills and languages were covered, including HTML5, CSS, JavaScript, jQuery, Bootstrap, Node Js, MySQL, MongoDB, ReactJS, and more.
- Awarded 'Most Useful Project' for 'Scout' application

Birmingham City University, UK

Bachelor of Music with Honours (2:1), 2015

- Attended from 2013 to 2015 (accelerated course) -

CAREER HISTORY

Music Composition

Freelance, 2015 - present

- Understanding client needs and encouraging dialogue to deliver tailored musical scores
- Effectively working to often rigid timeframes, (usually between 1 and 3 weeks)
- Leaning methods to deal with creative/working barriers and prevent 'dead time' on projects

Staff Content Writer

Moviepilot/NowLoading, 2016 - 2017

- Writing creative content for a large audience (over 800,000 page views over 84 articles)
- Understanding different purposes in article types, and adjusting writing style to accommodate this

FEATURED PROJECT:

- Scout -

github.com/djwasing/Scout-Project-App
Ride-share comparison service with an emphasis on simplicity

(HTML / CSS / Bootstrap / JavaScript / jQuery / API / AJAX)
